

Investor in Careers Kite Mark

Phoenix High School is working towards the Investor in Careers Kite mark for July 2012.

This means that all students will have an even more successful transition from class based learning at Phoenix into employment when they leave school.

It will support all the work we are already doing and will also support the wider curriculum by covering personal development learning, work related learning and enterprise education.

The Kite mark will ensure that your child receives high quality careers advice education in school from years 7-13.

Mr Ross, Assistant Head
